

Windmill Hill Big Local in partnership with Halton Borough Council are looking to develop a BMX / Pump track on Phoenix Park.

HBC have undertaken preparatory research and produced some preliminary designs for a bike track close to the skate bowl and tarmac kick-about area. This new facility would complement existing leisure facilities and add a new healthy cycling option to Phoenix Park.

Please note: *This is a first stage consultation – no funding has yet been secured. Funding for a BMX / Pump track will depend on the results of the consultation.*

What is your age band?

0-5yrs 6-10yrs 11-16yrs 17-21yrs 21+yrs

What is your gender?

Male: Female: Prefer not to say:

Are you generally in favour of a BMX / Pump / Cycle track in Phoenix Park?

Yes: No:

Are you likely to use the BMX / Pump Track?

Yes: No: Don't know

Have you used any other BMX / Pump track locally?

Yes: No:

If 'Yes' – Where?

What did you like about it?

Do you use the existing tarmac kick-about-area *next to the MUGA*?

Yes: How often?

No:

Track Location Ideas: Please indicate your preference between A, B and C

Location 'A' would totally remove the kick-about-area.

Location 'B' would also remove the kick about area.

Location 'C' (below) would retain a smaller kick about area in the same space

Which Location do you think best?

- Location A
- Location B
- Location C

Somewhere else? – Please mark on the map.

Please tell us which of the following you are (select tick all that apply):

A regular visitor to Phoenix Park:

A local resident of; Windmill Hill:

or Castlefields:

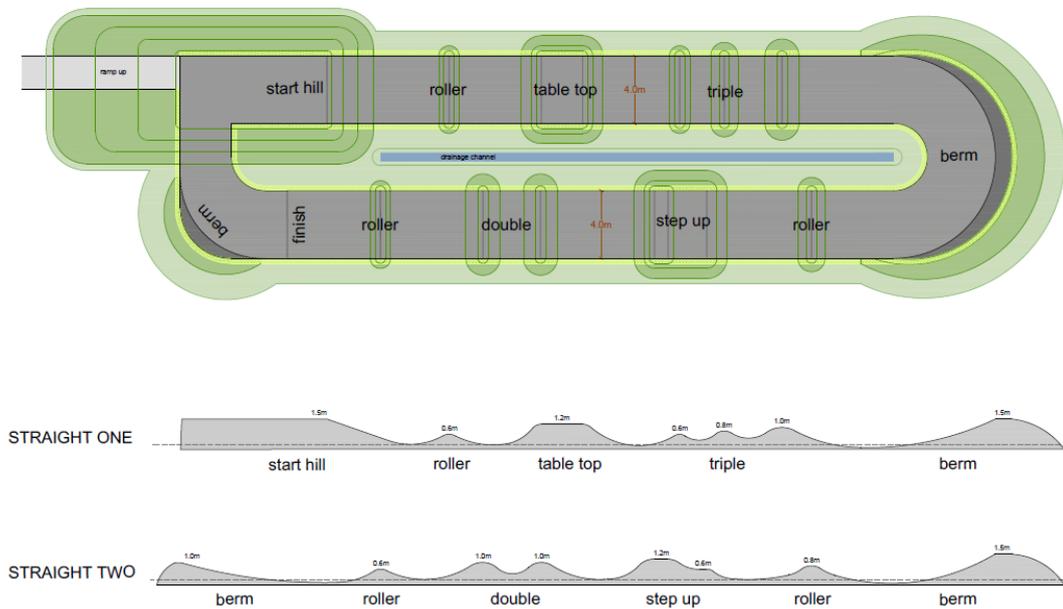

A potential skate park user:

Other:

Please compare the two track options A and B below:

BMX Pump Track Draft Design Option A

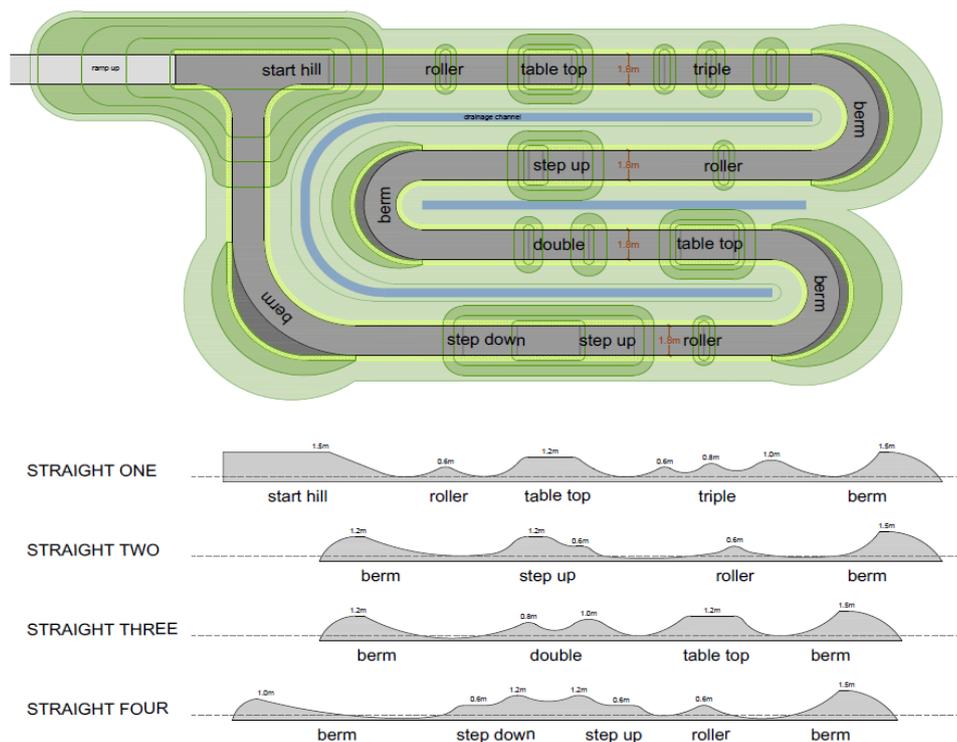

4m wide tarmac track, 100m long.
2 straights, 2 berms, 7 jumps.

Option A - a short but wide track, suitable for over-taking and racing.

BMX Pump Track Draft Design Option B

1.8m wide tarmac track, 140m long.
4 straights, 4 berms, 9 jumps.

Option B – a longer track with more jumps but narrower so unsuitable for racing.

Preferred Track Design?

Design A

Design B

If you are likely to use the BMX / Pump track what do you ride?

BMX

Roller blades

Scooter

Skateboard
